

# Sparklers Safety Tips

- Keep sparklers out of the hands of children under 12.
- Don't wave sparklers in the air. (Why: This actually energizes them and they burn hotter. Plus, they could break and hit someone.)
- Stand when using a sparkler.
- Never hold a child with a lit sparkler.
- Don't light one sparkler with another.
- Never use more than one sparkler at a time.
- Hold a sparkler at arm's length and never near someone's face.
- Wear closed-toed shoes.
- Have a bucket of water nearby to put used sparklers.

**For Routine and Emergency Hand,  
Wrist and Arm Care call  
(502) 561-4263.  
We accept pediatric  
and adult patients.**
